

Eneve Competitive Intelligence Report

Generated: 2026-03-11 17:24 UTC

Companies Analyzed: 64

Executive Summary

Target Company: Eneve (Netherlands)

Focus: Smart software for the energy value chain

Total Competitors: 64

- European Energy Software: 30 companies
- Direct Competitor: 14 companies
- Energy Sector Software: 10 companies
- Netherlands Energy: 7 companies
- Netherlands Software: 3 companies

Company Profiles

1. Autogrid

Category: Direct Competitor | Score: 1.00 | Industry: Energy

Location: Redwood City, United States

IoT enabled distributed energy resource management solutions provider

2. GridBeyond

Category: Direct Competitor | Score: 1.00 | Industry: Energy

Location: London, United Kingdom

AI-based platform for balancing distributed energy resources and demand response

3. Vandebron

Category: Netherlands Software | Score: 0.95 | Industry: Energy

Location: Amsterdam, Netherlands

Online marketplace for retail power consumers

4. Likewatt

Category: Direct Competitor | Score: 0.95 | Industry: Energy

Location: Lyon, France

Provider of solutions for energy optimization

5. Flick Electric

Category: Energy Sector Software | Score: 0.95 | Industry: Energy

Location: Wellington, New Zealand

Online electricity retailer

6. Next Kraftwerke

Category: Direct Competitor | Score: 0.95 | Industry: Energy

Location: Cologne, Germany

Virtual power plant digital platform & power trading

7. Wattics

Category: Direct Competitor | Score: 0.94 | Industry: Software Development, Business Inte

Location: Roe Lane Thomas St, Dublin 8, IE

Wattics energy and IoT analytics software is trusted by major global brands and is changing the way energy consultants, renewables, utilities and energy-saving companies engage with their clients, dis

8. Solarwatt

Category: European Energy Software | Score: 0.94 | Industry: Renewable Energy

Location: Dresden, Germany

The Dresden-based company with over 300 employees is active throughout Europe and has become one of the leading German manufacturers of photovoltaic systems which range from high-quality solar modules

9. Gasunie

Category: Netherlands Energy | Score: 0.93 | Industry: Energy

Location: Groningen, Netherlands

Dutch natural gas infrastructure and transportation company

10. Fudura

Category: Netherlands Energy | Score: 0.93 | Industry: Energy

Location: Zwolle, Netherlands

Energy infrastructure and measurement service provider

11. Acciona Energia

Category: European Energy Software | Score: 0.93 | Industry: Energy

Location: Madrid, Spain

Provider of renewable energy solutions

12. Reactive Technologies

Category: European Energy Software | Score: 0.90 | Industry: Energy

Location: Oxford, United Kingdom

Developer of cloud-based demand-side management solutions

13. Veolia

Category: European Energy Software | Score: 0.90 | Industry: Energy, Utilities, Waste Management

Location: France

Veolia is a company that provides solutions in energy, water, and waste management

14. Verv

Category: European Energy Software | Score: 0.90 | Industry: Energy

Location: London, United Kingdom

AI-driven energy monitoring solution for homes

15. Shell Energy

Category: Netherlands Energy | Score: 0.89 | Industry: Manufacturing

Location: Netherlands

A global team of energy & petrochemical companies

16. Energa

Category: Energy Sector Software | Score: 0.89 | Industry: Solar Energy

Location: Brisbane, Australia

Energa is a company based in Australia that provides commercial solar services. Claims to have installed 3k systems. Services include design, optimization, engineering, installation, construction, com

17. Sunfire

Category: European Energy Software | Score: 0.88 | Industry: Audio Equipment

Location: Dresden, Germany

Sunfire is a world-leading industrial electrolysis company with two differentiated technologies. We develop and manufacture electrolyzers based on SOEC and Alkaline technologies that enable a truly su

18. Liander

Category: Netherlands Energy | Score: 0.88 | Industry: utilities

Location: 68 Utrechtseweg, Arnhem, Gelderland, 681

Dutch energy network company that develops and operates energy distribution networks throughout the Netherlands

19. Stedin

Category: Netherlands Software | Score: 0.88 | Industry: Energy

Location: Rotterdam, Netherlands

Provider of electricity and gas network infrastructure. This company manages and maintains the networks that deliver energy to consumers.

20. GRDF

Category: European Energy Software | Score: 0.88 | Industry: Energy

Location: France

Operator of the natural gas distribution network in France, offering services and solutions for individuals, professionals, and communities

21. Kiwi Power

Category: Direct Competitor | Score: 0.86 | Industry: Renewable Energy Semiconductor Manu

Location: England, United Kingdom

Kiwi Power's vision is to simplify distributed energy for global sustainability impact.

22. Pinergy

Category: European Energy Software | Score: 0.86 | Industry: Energy

Location: Dublin, Ireland

Smart energy management solution provider

23. Electricite de Strasbourg

Category: European Energy Software | Score: 0.86 | Industry: Energy

Location: Strasbourg, France

Electricite de Strasbourg (ES) produces electricity and gas. It operates, maintains, develops, and renews an electrical network in the Alsace region under the brand ESR.

24. Origami Energy

Category: Direct Competitor | Score: 0.86 | Industry: IT Services and IT Consulting

Location: Cambridge, Cambridgeshire

A green energy world, powered by smart technology.

25. Moixa

Category: European Energy Software | Score: 0.85 | Industry: Design, Technology and Research

Location: London, England, UK

British cleantech company that develops software and hardware to optimise use of renewable energy

26. Schneider Electric

Category: European Energy Software | Score: 0.85 | Industry: Energy Management and Automation

Location: Rueil malmaison, France

Provider of energy management and automation services

27. Bouygues Energies

Category: European Energy Software | Score: 0.85 | Industry: Energy and Services

Location: Milan, Italy

Design, construction, and maintenance of high-tech plant systems, providing turnkey solutions

28. A2A

Category: European Energy Software | Score: 0.85 | Industry: Utilities

Location: Brescia, Italy

A2A S.p.A. is an Italian company that generates, distributes, and markets renewable energy, electricity, gas, integrated water supply, and waste management services.

29. SMA Solar Technology

Category: European Energy Software | Score: 0.85 | Industry: Renewable Energy

Location: Germany

A leading global specialist in system technology for decentralized and renewable energy supply

30. Utilita Energy

Category: European Energy Software | Score: 0.84 | Industry: Utilities, Custom Software & Techni

Location: Winchester, UK

Founded in 2003, Utilita Energy was created to challenge the Big 6 energy suppliers by empowering everyone with a fair and flexible service that's good for the pocket and planet.

31. Energieopwek

Category: Netherlands Energy | Score: 0.84 | Industry: Energy

Location: Netherlands

Energy infrastructure company

32. EVN

Category: European Energy Software | Score: 0.84 | Industry: Utilities

Location: Maria Enzersdorf, Lower Austria, Austria

Austrian-based producer and transporter of electricity, operating in water treatment, natural gas supply, and waste management business areas

33. BKW

Category: European Energy Software | Score: 0.83 | Industry: Energy and Infrastructure

Location: Switzerland

An international energy and infrastructure company offering integrated solutions in energy, buildings, and infrastructure

34. Tempus Energy

Category: Energy Sector Software | Score: 0.83 | Industry: Energy

Location: Worcester, United States

Demand management by using electricity during non peak hours at cheap rates

35. BeeBryte

Category: Direct Competitor | Score: 0.82 | Industry: Energy Management

Location: Lyon, France

BeeBryte combines predictive maintenance and energy management to anticipate failures and optimize the performance of refrigeration and HVAC equipment.

36. Electron

Category: Direct Competitor | Score: 0.82 | Industry: Energy

Location: London

Building the foundations for an affordable, reliable, and flexible energy system

37. Red Electrica

Category: European Energy Software | Score: 0.81 | Industry: Utilities

Location: Alcobendas, Spain

A partly state-owned and public limited Spanish corporation which operates the national electricity grid in Spain

38. Flogas

Category: European Energy Software | Score: 0.81 | Industry: Energy

Location: Dublin, Ireland

Energy supplier and sustainability services provider

39. GE Vernova

Category: Energy Sector Software | Score: 0.80 | Industry: Energy

Location: Cambridge, MA

A company focused on building a more sustainable electric power system and improving climate change emissions

40. Vorarlberger Energienetze

Category: European Energy Software | Score: 0.80 | Industry: Energy management

Location: Vienna, Austria

Energy management company responsible for the management of international gas transmission systems in Austria

41. Terna

Category: Energy Sector Software | Score: 0.80 | Industry: Renewable Energy

Location: Greece

Clean Energy production and implementation of innovative projects, contributing to Sustainable Development

42. Entelios

Category: European Energy Software | Score: 0.79 | Industry: Energy

Location: Norway

The energy partner optimising businesses' energy consumption with predictable and sustainable solutions.

43. Vinci Energies

Category: European Energy Software | Score: 0.78 | Industry: Energy, Infrastructure, Industry, I

Location: France

Accelerator of the environmental transition

44. TenneT

Category: Netherlands Energy | Score: 0.78 | Industry: Utilities

Location: Arnhem, Gelderland, Netherlands

TenneT is actively investing in extensive grid expansion projects, including offshore and onshore development, with a focus on accelerating the transition to renewable energy sources.

45. PassivSystems

Category: Direct Competitor | Score: 0.78 | Industry: Energy Technology

Location: Newbury

Smart energy technology business developing software solutions to decarbonise homes

46. Schneider Electric Germany

Category: European Energy Software | Score: 0.77 | Industry: Energy Management

Location: Rueil-Malmaison, France

Schneider Electric in Deutschland, Österreich & der Schweiz

47. Energie 360

Category: Energy Sector Software | Score: 0.76 | Industry: Energy and Environment

Location: Canada

Energy and Carbon Management Solutions

48. Eneve

Category: Netherlands Software | Score: 0.75 | Industry: Energy

Location: Netherlands

Smart software for the energy value chain

49. Alliander

Category: Netherlands Energy | Score: 0.75 | Industry: Energy

Location: Arnhem, Netherlands

Network company responsible for the distribution of energy, such as electricity, (bio)gas and heat

50. Pure Planet

Category: European Energy Software | Score: 0.74 | Industry: Energy

Location: Bath, England, United Kingdom

A digital renewable energy supplier in the energy sector

51. Qurrent

Category: Direct Competitor | Score: 0.74 | Industry: Energy

Location: Sweden

Develops intelligent software solutions for the optimization, control, and automated trading of decentralized renewable energy assets

52. Siemens Energy

Category: Energy Sector Software | Score: 0.73 | Industry: Renewable Energy

Location: Ronda de Europa, 5, 28760 Tres Cantos, M

One of the world's leading energy technology companies, driving sustainable innovation and working with customers and partners to develop energy systems for a cleaner, more sustainable future.

53. Innogy Poland

Category: European Energy Software | Score: 0.73 | Industry: Energy

Location: Warsaw, Poland

App-based platform for on-demand electric car rentals in select Polish cities

54. Siemens Gamesa

Category: European Energy Software | Score: 0.70 | Industry: Renewable Energy

Location: Zamudio, Spain

A global leader in the wind industry, providing clean energy solutions and unlocking the full potential of wind power.

55. SSE Energy

Category: Energy Sector Software | Score: 0.69 | Industry: Energy

Location: Perth

Provider of renewable energy plans and low-carbon solutions for businesses

56. Open Energi

Category: Direct Competitor | Score: 0.68 | Industry: Renewable Energy

Location: London, United Kingdom

The leading marketplace for renewable energy finance & corporate sustainability solutions

57. Engie

Category: European Energy Software | Score: 0.65 | Industry: Energy

Location: Courbevoie, France

A leading energy expert in international supply and energy management

58. Ores

Category: Energy Sector Software | Score: 0.65 | Industry: Sustainable Energy

Location: Colorado

Clean iron producer using a low-temperature process to electrochemically refine iron ore into 99% pure iron

59. RTE

Category: European Energy Software | Score: 0.63 | Industry: Energy

Location: Ireland

Transmission System Operator

60. Volue ASA

Category: Direct Competitor | Score: 0.57 | Industry: Energy

Location: Oslo, Norway

Energy market services and software provider

61. OVO Energy

Category: European Energy Software | Score: 0.54 | Industry: Energy

Location: Bristol, UK

an app-based renewable energy supplier providing electricity, biogas, EV charging bundles, and smart-home energy solutions

62. Romande Energie

Category: European Energy Software | Score: 0.52 | Industry: Energy

Location: Vaud, Switzerland

A full-service energy provider and the leading electricity supplier in French-speaking Switzerland, offering sustainable solutions to reduce CO2 emissions.

63. Octopus Energy

Category: Energy Sector Software | Score: 0.43 | Industry: Energy

Location: London

A clean energy technology company providing green energy solutions

64. Volue

Category: Direct Competitor | Score: 0.00 | Industry: None

Location: N/A
